In 1984, the National Crime Prevention Council designated October Crime Prevention Month. Every year since then, government agencies, civic groups, schools, businesses, and youth organizations have reached out to educate the public, showcase their accomplishments, and explore new partnerships during this special month.

October has become the official month for recognizing and celebrating the practice of crime prevention, while promoting awareness of important issues such as victimization, volunteerism, and creating safer, more caring communities. The month-long celebration spotlights successful crime prevention efforts on the local, state, and national levels.

We need to do our part to make it hard if not impossible for criminals to make us victims!

Take your valuables out of your vehicle.

Roll up the windows of your vehicle.

Lock the doors of your vehicle.

Lock your sheds and lanais.

If you see something going on in our neighborhood that doesn't seem right, say something. Notify management or another neighbor or call law enforcement if needed. Do NOT confront on your own, let those in authority handle it. Most of us have cameras in our phones, don't forget to use them for back-up later.
