

# Winterset Waves

Aug. & Sept., 2020

Dear Residents,

We at Newby Management and the Winterset office are concerned about the safety and well-being of each and every one of our residents.

Even the residents that go north for the summer can help the community be prepared for the hurricane season.

Your community web site can be a very important link to emergency information in the event your community has been hit by a hurricane.

- Every home attachment and utility shed must be anchored to the ground.
- Before leaving for the summer, place all loose items such as bicycles, grills, lawn ornaments, plants and chairs inside.
- Put window awnings down.
- Each resident should have an inventory of belongings. This inventory should include the make, model number, color and serial number of all high dollar items.
- Take pictures of the items that are in your home. The list and pictures should be kept in a safe deposit box and copies should also be taken with you when you go north for the summer or you evacuate your home in the event of a hurricane.

Be prepared for a mandatory evacuation should one be ordered. The clubhouse will be closed and locked in the event of a hurricane inasmuch as it is not a certified shelter.

Stock up on essentials such as food, water, paper products and so forth. Most of us have done this because of the pandemic already.

## August Yard of the Month

We congratulate Gerard & Doreen Lacroix, Lot 10, winners of August, 2020 *"Yard of the Month"* Award.

They will receive a \$25 gift card to Home Depot and a plaque placed in their yard for the month.

## September Yard of the Month

We congratulate Robert Sanders, Lot 51, winner of September, 2020 *"Yard of the Month"* Award.

He will receive a \$25 gift card to Home Depot and a plaque placed in his yard for the month.

### Attention:

We are now using an outside vendor for our lawn mowing, edging and trimming. They have asked that we request all of our residents to be sure that their lawns are clear of items in the grass such as ladders, hoses and so forth. They also ask that any border lights and so forth be set back at least 8 inches from the edge of the grass otherwise their trimmers could cause damage to those items. If the lights and so forth are too close to the edge of the grass they will not be able to trim in those areas.

Thank you for your cooperation and assistance in these matters.
